# Are you looking for qualified employees?

## Shortage of skilled personnel

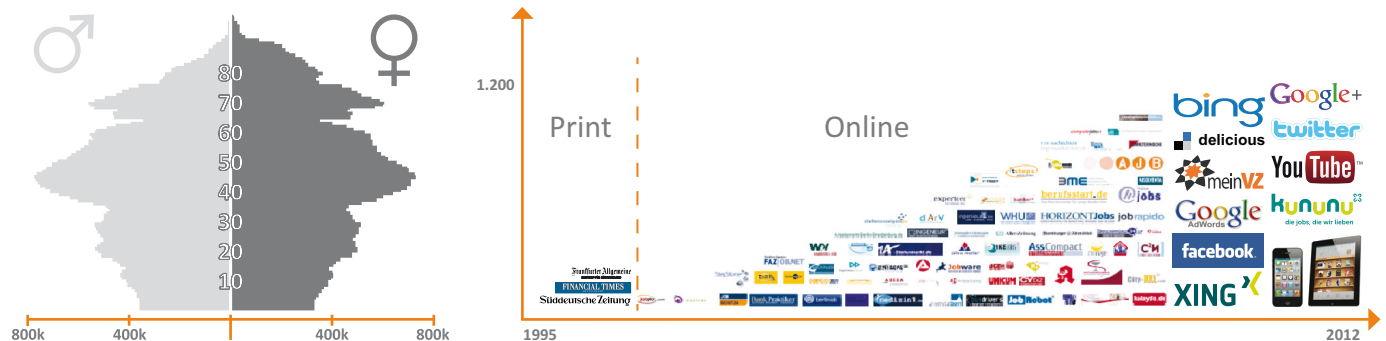

Attracting well-qualified personnel becomes increasingly challenging for companies, making it all the more important to present applicants with a persuasive offer.

## Surplus of online-recruiting channels

There are more than 1000 job boards, job search engines, social media channels and online communities involved in the German market. Consequently, the act of choosing the fitting job portal and placing a job ad becomes more and more complex.

## Applicants are using different tactics to look for jobs

You need to be aware of the different ways in which applicants (especially passive job seekers) use the internet. Along with classic online job boards, social networking sites such as Twitter and Facebook have become essential recruiting tools.

## We facilitate your search for applicants on the internet.
